

Guidelines for uploading video

Videos should be uploaded to the MOBAC Libraries YouTube channel by the person who records the video. Contact the Technology Committee for the username and password for the channel.

See the [Upload videos – YouTube Help](#) page for instructions on uploading. If your video is broken into multiple parts, you may want to [create a playlist](#) to display all parts together.

YouTube will process the video automatically, or you may choose to process it manually before uploading; see instructions below.

Manual Processing Method

Recommended recording mode: standard definition or quality (HD files are too large), 4x3

Use video software (program on camera or other of your choice, such as Avidemux) to format file as follows:

- Format: MP4
- Video: MPEG-4 AVC
- Audio: AAC (faac)
- Video Filters: resize video for web
 - Resize dimensions: 480 x 320
- Aspect ratio: 4.3
- Configure audio: bitrate 96
- Audio Filters: gain mode – automatic (max. – 3db)
